

Fuel Station Operations & Management: Practical Workshop

Oil & Gas Operations

QGT-OGP-172 | Practical workshop | 5 or 10 days | Online, classroom, in-house

Course overview

Fuel Station Operations & Management: Practical Workshop is a hands-on workshop built around exercises and real site problems in Fuel Station Operations & Management. It covers the principles, the requirements of API, IOGP, ISO 13702 and company standards, and the practical methods used on site, with case studies from operations in the Gulf, Africa and worldwide. Available online, in the classroom in 60 cities, or in-house.

What participants will be able to do

- Explain the principles, terminology and scope of Fuel Station Operations & Management
- Apply the relevant requirements of API, IOGP, ISO 13702 and company standards
- Use practical tools, checklists and calculations with confidence
- Recognise common problems, risks and root causes and choose the right corrective action
- Prepare an improvement plan for their own site or organisation

Who should attend

Designed for operations, production and process staff in upstream, midstream and downstream oil and gas who want practice rather than theory.
